*Annual Female Sale Ellensburg, Washington 10.14.23*

# GENERATIONS OF EXCELLENCE

The cattle market is at all time historic levels and it is a very exciting time to be involved in the business, especially in the cow/calf sector! Congratulations - you all work hard and you deserve all of the good things that have come our way this year. This year we will be conducting a BQA training prior to the sale conducted by Phillip Kesterson, DVM from Zoetis so plan to arrive in time to participate. This is an opportunity to get recertified and add another piece to the value add opportunities that can be so important to your calf crop marketing efforts.

With everything that we do, we try to have the “bigger picture” in mind. Although we enjoy our position in the industry as a seedstock provider, we also realize that all beef cattle enter the beef supply chain at some time in their lifetime. Just like you, we expect our cows to calve on time every year, raise a big calf, and be as problem free and low maintenance as possible. This is perhaps the best explanation for why we are such proponents of crossbreeding – it just makes everything better!

This cowherd just like so many of yours has been a lifetime project. Always striving to improve, we feel that this set of females offer tremendous opportunity from a program at the front end of the curve as it relates to the beef business. Years of documented success at our annual bull sale is further validated from all of the positive customer feedback that we receive about the constructive and oftentimes monumental improvements so many of our customers experience when they put these genetics to work in their outfit.

All of the females have been synchronized right alongside the rest of our cowherd and sell bred to many of the best of up-and-coming sires that we have in our current line up! Although it is always hard to part with females of this caliber, we are excited to share them with you and look forward to their future success at your ranch. Whether you are looking for just that one special female or you want to get a trailer load put together, this is the place to be on October 14th to access this tremendous set of extremely productive cattle.

The sale cattle were preg checked by Dr. Liam Robbins from Baker, Montana and resulting pregnancies aged and sexed where possible. This provides a unique opportunity for you to put together a set of females with your preferred calving date as well as the chance to select the sex of your calf crop as well. In addition, all were exposed to AI with a large percentage of the females safe to the AI date. Those that are bull bred have been exposed to our high value herd sires that all have DNA on file in the event you would like to DNA type the resulting calves for parentage & registration purposes.

Cattle will be penned and available for viewing by Friday Oct 13th with plenty of parking available for your trailers and you are welcome to drop them early if you plan on coming in on Friday. Coffee and donuts will be available Saturday morning and lunch will be provided as well.

From our family to yours – thanks for your interest and if we can be of any help, please don't hesitate to call. Looking forward to seeing you on October 14th.

The Formans

## 2023

### Generations of Excellence Female Sale

### Schedule of Events

#### Saturday, October 14

All day: Preview sale cattle

2 PM – BQA Certification  
Training

[www.simmental.org](http://www.simmental.org)

## **Herd Health:**

Our cattle have been developed under a very extensive health protocol and the entire Trinity herd is properly vaccinated and boosted annually with Inforce 3 (2x as calves), Bovishield Gold 5 FP5 VL5 HB (3x in yearlings by sale time and once annually thereafter), Ultra Choice 8 (3x per year), Bovishield Gold One Shot (2x as calves), Multimin (2x per year), Vitamin A&D, Autogeneus Pinkeye vaccine (boosted annually), injectable dewormer in the spring, Scour Guard in November, Pour on dewormer and Valbazen drench in the fall for further parasite control. The last treatments given were at pregnancy diagnosis where all received 8 way and pour on fly control. We encourage you to enroll these females in your vaccination protocol when they arrive at your ranch.

## **Pregnancy Diagnosis:**

All cattle were verified as pregnant and fetal aged and sexed where possible by Dr Liam Robbins from Baker, Montana on August 11th.

## **Performance Data:**

All EPDs, birth weights, yearling weights, ratios, and official data is processed with the ASA and AAA. Although all animals listed are showing their EPDs from our registration with the American Simmental Association, all of the Angus females are dually registered with the AAA and their registration number shows with their catalog information. You can look up all current EPDs on all sale lots by visiting either breed association's database.

**All EPDs are current as of Fall 2023**

## **Delivery:**

Please plan to bring your trailer or secure transportation with a friend or neighbor for your purchases. Although we will make every effort to assist you in any way possible, we typically do not provide delivery for female sales. We guarantee that all females will pass necessary health tests for shipment out of state, but those costs (if any) will be borne by the new owner. If for some reason a female will not pass required testing, a full refund will be available. For those of you planning on making volume purchases please visit with Robb or Chelse prior to the sale for potential freight considerations.

## **Insurance:**

Livestock mortality insurance will be available sale day through James F. Besler Inc. Livestock Mortality Insurance.

## **Announcements:**

Announcements from the auction block regarding all cattle selling take precedence over printed material in the sale book or other printed material associated with this sale.

## **Liability:**

Trinity Farms' representatives or any of the sale staff assume no liability, legal or otherwise for any accidents or injuries that may occur. Each animal will become the buyer's risk as soon as the animal is sold.

## **Terms and Conditions:**

Terms of the sale shall be cash, bankable check, Visa or Mastercard to be settled on sale day unless prior arrangements have been made. We will be charging a 3% fee on all card charges. Cattle sell under the suggested Terms and Conditions of the American Angus Association ([http://www.angus.org/Pub/suggested\\_sale\\_terms.pdf](http://www.angus.org/Pub/suggested_sale_terms.pdf)) and the American Simmental Association.

## Become BQA Certified!

Saturday – 2 pm, prior to sale

BQA does more than just help beef producers capture more value from their market cattle: BQA also reflects a positive public image and instills consumer confidence in the beef industry. When producers implement the best management practices of a BQA program, they assure their market steers, heifers, cows, and bulls are the best they can be. Today, the stakes are even higher because the full beef supply chain is leveraging BQA to ensure our commitment to food safety, animal wellbeing, and beef quality.

Training presented by: Phillip Kesterson, DVM with Zoetis
